It is presumed, that the surest criterion to estimate the character of them well known Conveyances, and of the high consideration which the Country Establishments, connected with them, are held by the public, is—*the numerous Booking Shops constantly opening to the right and left of the Spread Eagle, Gracechurch Street, and surrounding the Spread Eagle Office, Piccadilly.* These futile and disreputable attempts at competition, *(in one case, from the penalty of many other pretensions, reduced to the painful expiating of exhibiting a Spread Eagle)* cannot fail of completely establishing the preference of the Public, and the reputation of the original object of so much loyalty and confusion.

☞ At the Spread Eagle Inn, Tavern, and Hotel, Passengers and Families leaving London by any of the above Conveyances, will find superior accommodation, combined, with the advantage of being on the spot when the Coaches start.

### GREAT REDUCTION IN TEAS.

Golden Canister Tea Warehouse,

43, GREAT EAST STREET,

Opposite Castle Square, Brighton.

QUICK and COMPANY have great pleasure in informing the INHABITANTS and VISITORS of Brighton and its Vicinity, that at the June Tea Sale, now concluded, the price of Green Teas *has declined 6d. to 8d. per pound.* Confidently anticipating a reduction in this description, their purchases were regulated accordingly; consequently their friends may be assured of deriving the *full and immediate benefit.* The prices of other kinds have varied but little from those of the March Sale: a large proportion of the Congous and Souchongs consisted of weak insipid Teas; there were, however, some break possessing real strength and flavor, and which sold as low as others full 1s. per pound inferior in quality.

The great and increasing support which the *Golden Canister Tea Warehouse* has experienced since its establishment, is the best proof which can be offered of the liberality of the system, and the decided superiority of the selections. By pursuing the principle adopted at the commencement—that of supplying articles of the *finest quality, at a low scale of profit*, Quick and Company are certain of establishing a trade larger than even their ideas had anticipated.

They *earnestly* court comparison, both as to price and quality, with any of the London houses, confident that one trial will be found sufficient to prove the advantage derived by heads of Families, Hotels, Boarding Houses, &c. in selecting their Teas and Coffees at the above Warehouse.

Q. and Co. wish it particularly to be noticed that they *roast their own Coffee constantly fresh*, and on a much improved principle, entirely their own.

The trade supplied by the chest, for cash, at 1d. per pound profit on the sale cost.

### Patent Projecting Metallic Letter Manufactory, 291, Strand.

THE universal approbation which these Letters have received, and the increasing demand for them, have induced the Proprietors to make every exertion to discover a metallic substance to imitate the inconvenience found in the use of tin, not to exceed it in price, and wholly to supersede the expense of copper. After many trials they have the satisfaction to inform their numerous friends and the public, that they have discovered a compound metal, which most perfectly answers every purpose, and they now respectfully beg to press on their attention the use of these Letters, which are more durable and far cheaper than copper; they will never corrode or rust, and present a most beautiful surface for Gilding or Painting.

The proprietors have been at very great expence to obtain an extensive variety of Models, made on mathematical principles, to produce the most elegantly formed letters, and they have the satisfaction to be able to offer a variety of Roman, Gretchen, Celtic, Italian, and other characters, which will bear the most critical eye.

These letters are particularly adapted for Shop Fronts, Public Buildings, Name and Place on Ships' Sterns, and every situation exposed to the weather. They are warranted not to be affected by salt water, or a marine atmosphere.

Their Brass Letters, prepared for Water Gilding, Bronzing, or Polishing, are now proved to be invaluable for Inscriptions for Churches, Chapels, Tombs, Monuments, &c. Specimens of them may be seen in almost all parts of the Kingdom, in St. Paul's Cathedral, Westminster Abbey, the Custom House, St. Paul's School, Orphan Asylums, new Churches, the new Chapel in Finsbury Circus, &c. &c. &c.

Tablets for Shop Windows elegantly displayed, with polished Brass Letters on Black or Coloured Velvet Grounds: with a great variety of Borders and Ornaments. Sears and Co. Makers, 291, Strand, London. These may be seen in every fashtell shop in the Kingdom, and are universally admired.

Brass Door-plates, with raised Letters, cast to any size or pattern. Engraved Brass Door and Window Sill plates' executed and finished in the most perfect manner, together with all the Ornamental Brass Work for Shop Fronts, in the newest patterns.

Their Brass Figures for Doors are now very generally used. In consequence of the great and increasing demand for these articles, attempts have been made to pass an imperfect and illformed Letter, made of most perishable materials. That the Public may not be disappointed, and the original Letters bought, the Proprietors, *all orders are requested* to be addressed to the original and only genuine Manufacturers, ROBERT SEARS AND CO. 291, STRAND, LONDON.
