DAVIS'S BILIOUS TINCTURE.

AN effectual Remedy for obstruction of Bile, Indigestion, Head-ache, &c. The removal of Bile from the stomach has, for many years, engaged the attention of the most eminent of the faculty. Emetics and Aperients relieve the patient for a short period, but they ultimately weaken the powers of digestion, and thereby increase the disorders they are intended to remedy. The above Tincture is of a warm and invigorating quality, it restores the stomach to its proper tone, it strengthens digestion, destroys Bile, and in short re-animates the whole frame, without offering to be superior to any other of the powers of nature. To the delicate and nervous female, and to those who from peculiarity of constitution, are debarred the use of Tonics in general, the Bilious Tincture will prove an invaluable Medicine. The experience of thirty years (during which period the Proprietor has had many opportunities of observing the good effects of the Bilious Tincture,) has induced him to make its rare and unequalled virtues more known, with the confident assurance, that a Medicine so valuable will gain the approval of a discerning Public.

The flattering testimonies of the efficacy of the Bilious Tincture which the proprietor has already received, fully warrant him in the above assertion, but as the limits of an advertisement preclude their insertion, the public are respectfully referred to the proprietor's agents, where they may be seen. Nothing but the strongest conviction of the intrinsic worth of the Bilious Tincture, founded on many years' experience, (a great part of which was passed in practice in one of our most populous naval ports in the kingdom), thereby affording the proprietor an ample field for observing the effects of his valuable Medicine, upon those unhappy persons suffering from a constitution reduced by the ravages of a tropical climate, and in no one instance has the Bilious Tincture failed. Nothing therefore but the above conviction, could induce the proprietor to be at the serious expence of making it known by advertisements, if when made known its merits would not support its character.

The Bilious Tincture is prepared and sold in Bottles at 4s. 6d. each, by the proprietor, James Davis, Apothecary and Chemist, High-street, Arundel; Glaisyer and Kemp, North-street, Brighton; Pratt and Son, Chichester; Linington, Portsea; Cortis, Worthing; and by one or more Vendors of Medicine throughout the Kingdom. Where also may be had

DAVIS'S VEGETABLE TOOTH PASTE,

an excellent preparation for cleansing and whitening the Teeth, in a manner not to be surpassed by any other composition, while at the same time it is of a pleasant flavour, and may be used by children with the greatest safety, and instead of eventually injuring the Teeth, (a circumstance generally lamented in most of such compositions), it will preserve them, destroying all substances that adhere to them which cause the tooth-ache and inflammation of the gums. It would be useless to comment more upon a Dentifrice which, in the short space of one year, has gained such extensive patronage; suffice it to say, it only needs a trial to prove its merits. Sold in Pots at 1s. 6d. and 3s. 6d. each.

PURE MALLEABLE ZINC.

S. S. FOLKER, 143, Royal Colonnade, has just received a large supply of the Pure Malleable Zinc, and would especially direct public attention to the decided advantage which it offers on every occasion when contrasted with lead.

It is a Singularly light and beautiful article, and its cheapness and durability may be confidently guaranteed:—among many other purposes to which it may be applied, the following will not be considered unimportant—

FLAT ROOFS, BALCONIES, DOMES, VIRANDAS at little more than the expence of oil cloth, LINING FOR CISTERNS AND TANKS, DITTO FOR RESERVOIRS AND TROUGHS, used by Agriculturists, PIPES OF ALL DIMENSIONS for conveying water, GUTTERS, ditto, LINING FOR ROOMS AFFECTED BY DAMP:

In all the above applications of S. S. Folker's Zinc a great saving will be effected—in some instances it will be found nearly one half cheaper than either Lead or Copper.

N.B. This Fine must not be mistaken for the German Spelter, which is very brittle and unserviceable.

IMPERIAL NEUROTIC BALSAM,

OR

NERVOUS AND STOMACHIC RESTORATIVE.

The most satisfactory and respectable testimonials might be brought forward in its favour; but, as this method is frequently adopted merely to deceive, and as a single bottle of the Balsam will almost invariably afford the greatest relief, if not wholly remove the complaint, the proprietor prefers recommending it to trial, and leaving it to stand on its own merits. Prepared only by *Edward Palmer*, 249, Tooley-street, near London Bridge; and sold in bottles at 4s. 6d., 11s., and 22s. each; the latter containing as much as six small ones; and may be had of every
