

HAGUE, June 30, 1795.

The disaffection of the soldiers to serve on board the fleet becomes daily more visible; the Dutch garrisons even refused to be drawn by ballot, on which account their pay was yesterday withheld from them; a fire which threatens to be followed by more serious consequences.

This morning a battalion of French troops, and a detachment of Dutch cavalry, with two pieces of cannon, marched from hence upon a secret expedition, probably to disarm the Regiment of the Dutch guards, which is quartered in the adjacent villages, &c. of whom 500 men have already deserted.

LONDON, July 16.

This morning advices were received of the late arrival at Plymouth, of the Three French Men of War, taken by Lord Bridport in his late engagement.

Yesterday a Council was held at Whitehall, at which the Cabinet Ministers assisted before they went to St. James's, when a Resolution passed the Board, that Government do furnish to the Corn market in Mark-lane, on every Monday, for three months to come, 7000 quarters of Wheat, at a stipulated price per quarter; which Resolution was laid before the King by the Duke of Portland, and confirmed by his Majesty.

The Prince has settled 5000l. a year in money upon the Princess of Wales. Lord Cholmondeley and Lord Thurlow are the Trustees.

The pensions paid by the Prince of Wales amount to about 5000l. per annum. Of this, Mrs. Fitzherbert receives three thousand.

Lord Cholmondeley has proved that it is possible for a Prince to have a sincere friend; for he has acted in a manner the most noble and disinterested in the late embarrassments of the Prince of Wales. His Lordship now serves the Prince without pay.

The only Officers of the Prince's Establishment, who receive salaries, are the Earl of Jersey, Master of the Horse, 2000l. per ann. and General Lake and Hulle, 500l. per ann. each.

Yesterday dispatches were received from Lord Bridport with favourable accounts of the Engagement landed on the coast of France. These are yet insufficiently decisive to be made the subject of official communication.

Yesterday a Board was held at the Admiralty Office, Charing-cross, which was attended by a great number of the Lords of the Admiralty, and several Officers belonging to the Navy, when six ships were ordered to be fitted out immediately for the service. Lord Bridport was fitted out with twelve gunboats, and the Officers received their orders to repair on board their respective ships as soon as possible.

On Tuesday the following American ships and brig, all laden with flour and provisions, bound for French ports, but captured by Adm. Lord Bridport, were lately brought into H. mouth, viz.

- The ship Harmony, of 300 tons from Baltimore; The brig Hercules, of 200 tons from New York; The ship Catherine, of 300 tons from Philadelphia; The ship Virginia Packet, of 300 tons from Norfolk; The brig Nancy, of 200 tons from New York; The brig Rachel, of 200 tons from New York; The brig from New York.

They are part of a fleet of sixteen flat lately captured by the fleet under the command of Lord Bridport, and were sent in under the convoy of

The Russian man of war, of 74 guns, Captain Payne, The Revolutionary frigate, of 40 guns, Captain Cole, with The Alexander to the fleet.

The other vessels captured by our fleet are hourly expected. Several other vessels have also been detained, and, as reported by those which arrived, their cargoes kept as a supply for the Royalist troops acting on the French coast.

When these vessels arrive, Lord Bridport was full of cruising off Belleisle, and blocking up the French ports so completely that it is next to impossible for any vessel to get in. Should it be true then as has been stated, that Belleisle is short of provisions, the fall of the place may be soon expected; but the French accounts represent it as well stored with all kinds of necessaries.

A letter received yesterday from an officer on board Lord Bridport's Fleet, dated July 7th, off the Island of Croix, not far distant from Orieint, mentions that his Lordship had dispatched home the three French Line-of-Battle Ships, Prizes to his Fleet, under convoy of the Balafrin, Prince of Wales, and Revolutionary frigates. His Lordship had also sent to England several American Ships, laden with provisions, which he had hoped going to French Ports.

It is said to be decided that Lord Mordaunt should set off on Sunday next for Southampton, where he will stay but a very short time. This day, six Regiments, composing his advanced guard, are to embark for the coast of France. Lord Mordaunt will depart on Wednesday, when he will meet the Count d'Artois, with the corps of French Cavalry in the pay of Great Britain, who made the late Campaign on the Continent. The French General Officers to be employed in the army of Lord Mordaunt, have orders to repair to Southampton, in conformity with the French regulations raised last year, called the White Cockade Regiments, are to join the army of the Prince de Condé. Thus it appears, that his Royal Highness is to make an invasion into France from the side of the Rhine, while the expedition goes forward in Brittany.

There are forty pieces of cannon now on board different flotillas, which are intended to accompany the British troops who are to second the Emigrants in their Expedition. This is independent of a large train of artillery which accompanied the Emigrants. Seventy thousand flint of arms have also been shipped at different times lately to arm the Royalists.

At Cirencester, a subscription exceeding 5000l. has been made for the purchase of uniting provisions to the labouring poor at reduced prices.

The Directors of the India Company have ordered that no more Duty shall be served up at their Dinners at the London Tavern, and that no other Bread than Household be introduced.

During the scarcity of Bread, Rice and Denia Raisins would make a cheap and excellent Pudding. The Raisins cost only 3d. a pound, and do not require Sugar.

The Parish of Kettlewell in the County of Essex, have unanimously resolved, to make use of only one sort of flour for general use, and that flour to consist of the entire produce of the wheat, having only four pounds of bran per bushel taken out. They also resolved to allow to every poor family belonging to the parish, half a peck of flour, of quality above specified, per week, for every individual of each family at the rate of two shillings per peck. They also have resolved to allow for every individual of each family, half a pound of good meat, and half a pound of peas, per week; the meat to be of the best quality, and the peas per bushel at six pence half penny.

In Turkey, when a Baker is detected in making bread deficient in weight, he is taken by the populace in his own oven. Was one to be crested for the culprits in this piece, it must be made at least as large as the Dome of St. Paul's.

ARRIVAL - EXTRAORDINARY. Tarmouth, July 13. In consequence of the attack of the French upon Holland, 6000 British soldiers have emigrated, and is come to spend the Summer in England!

The Cavalry that were ordered to embark at Perry's Dock, yesterday, marched for Southampton, where they are immediately to be put on board Transports that are there waiting for them.

Early Proceedings.—Whins or fuzze, the natural produce of the poorest soil, is an excellent food for those animals—We are told by the author of the "Farmer's Tour through the East of England," that the labour of one man in cutting the young fuzze of whins, will maintain six horses; that they prefer them to corn, and will eat neither that nor hay while they have whins; that they will eat whins for corn, and so heaunting, that fuzze fed with it, will, in hard drawing, do as much work, and stand as long, as any fed in the common way. By the use of which all the corn is saved, and nine tenths of the bay. An acre of the poorest land, well cropped with whins, will maintain six working horses through the winter.

At a Council held for the City of Oxford, July 17, the following Resolutions were unanimously agreed and entered into.

I. RESOLVED, that it appears to this House that the present high Price of all sorts of Provisions are occasioned by the failure of the Crops, and the long drought, and the want of Rain, and the want of the Spring, and not to be ascribed to any other Cause.

II. RESOLVED, that the preventing or hindering the buying or selling, or carrying Corn or Flour from one Place to another, within this Kingdom; by Farmers, Measurers, or Bakers, in the Course of their Trades, instead of relieving, must increase the Price of those Commodities, and may be the Means of preventing Towns being supplied therewith at any Rate.

III. RESOLVED, that the failure of some Flour on Wednesday last by a Mob, within this City, was as disgraceful as it was ungrateful; and that it is recommended, that none of those concerned therein shall partake of the Libers and Privileges of the Poor.

IV. RESOLVED, that the Officers who reported and fulfilled the Mayor and Magistrates in the Execution of the Duties of their Office, ought to be brought to condign Punishment.

V. RESOLVED, that a Reward of TWENTY GUINEAS shall be paid by the City Treasurer to any Person or Persons who shall discover any one or more of such Offenders or Offenders, on his or their Conviction.

VI. RESOLVED, that the City Solicitor do prosecute all such Offences at this City Expense.

VII. RESOLVED, by the Chamber, unanimously, that they will be ready on all Occasions personally to attend the Magistrates, when they are called, to prevent any Unlawful Assemblies, and all Disturbances of the Peace, and to aid and assist them in enforcing Obedience to the Laws, and to concur in the Resolutions of the Grand Jury at the Quarter Sessions held Yesterday.

VIII. RESOLVED, that these Resolutions be indented in the Oxford and Reading Papers, and printed and dispersed throughout the City and Suburbs.

N. B. All the Members of the Council, consisting of near 400 (who had not been before), were appointed and sworn (as usual), to aid and assist the Magistrates in preventing all Riots and Unlawful Assemblies, and preserving the good Order within this City and Suburbs; and most of the principal Inhabitants were also appointed and sworn.

ORDER, that the Committee, appointed for the Management of the Subscriptions for the Peace, do continue, and that they do, by this, to publish an Account of what Stock of Corn and Flour there is in the City; and to purchase such Quantities as they may think necessary to be sold to the Bakers at prime Cost. And that the Treasurer of the City be empowered to advance any Sum not exceeding 5000l. for the above purpose; and that he do, by this, to advance such Sums, and that the Committee be further directed to make such Alterations and Rules for the Application of the Subscriptions, in reducing the Prices of any other of the Necessaries of Life, as will as of Bread, as they in their Discretion shall think fit.

CITY OF OXFORD.

WE the Grand Jury now assembled at the General Quarter Sessions of the Peace for the City of Oxford, having observed with extreme Sorrow and Regret the violent outrage which was committed on the 17th Instant, in preventing the Execution of Magistrate, and prevent further tumult and Disorder, do hereby offer our best Services, and pledge ourselves at all Times to be ready to assist and support the Magistrates in the Exercise of their Duty.

WILLIAM FORTY, Foreman.

- Grand Jury Chamber, July 16, 1795. HERBERT PARSONS, THOMAS PASCO, JOHN POLLEY, JOHN HAYES, THOMAS BRIDGES, JOHN SCRAEG, J. WALKER, R. R. WILLIAMS, F. F. BRICKNELL, J. DUNSFORD, RICHARD MADOC.

LADIES BOARDING SCHOOL. WATLINGTON, OXFORDSHIRE. MRS. TREACHER respectfully begs Leave to inform her Friends and the Public in general, that she has, for the Accommodation of her Pupils, taken that large and commodious House lately occupied by the Rev. Mr. Relton, where she continues to teach the various Kinds of Needle and Fancy Works.

An English Language taught grammatically, Writing, Arithmetic, and the other Branches of Education, suitable for young Ladies. Those who will favour her with the Care of their Children, may depend on their Situation being made comfortable by kind Treatment and a strict Attention paid to the Preservation of their Health and Morals, and the most assiduous exertion to improve them in every Branch of polite Education.

Dancing, Music, and Drawing by approved Masters. The Terms may be known by applying at the School, which opens on Monday next July 20, 1795.

JOSEPH TOMBS'S DIVIDEND. THE separate Creditors of Mr. Joseph Tombs, of Abingdon, in the County of Berks, who have proved their Debts under the separate Commission of Bankrupt awarded against him, or under the Joint Commission awarded against him and Thomas Patey, Richard Byrshell, and Joseph Tombs, are hereby informed, that they may receive a Dividend of Seven Shillings and Sixpence in the Pound on their several Debts, by applying on Thursday the 3d Day of July instant, or any Day afterwards, at Mr. Tombs's late Banking House, in Abingdon.

It is required that such of the Creditors who have Notes, will, upon coming to receive their Dividends, bring their Notes with them. C. R. EDWARDS, Solicitor to the Assignees.

TITHES of CORN and HAY, in the four Fields and Meadows of Abingdon, to be LETT on LEASE by PUBLIC AUCTION, on Monday the 20th of August next, at the Lamb Inn, in Abingdon, betwixt the Hours of Three and Six o'Clock, unless former sale of private Contract, a Part to be entered upon at the Lot of 20 Acres, and the other 20 Acres, 60 Acres Measure of Gals, twelve Cow Cows, 100 Acres more or less of the above Tithes, in the same Fields and Lands, of Corn to be made Tithes-free, aid, together with a separate indented Parcel of about 20 Acres more or less of the same Fields and Lands, aid, together with two Dwelling Houses and Barns, and other tenements, and lately repaired, in separate Parcels or all together, as may be agreed upon.—Enquire of Mr. Sellwood, Attorney, at Abingdon.

NOTICE TO CREDITORS AND DEBTORS. WHEREAS GEORGE WARD, of the Borough of Watlington, in the County of Warwick, a Butcher, hath by Deed of Assignment, lately executed by him, assigned over all his Estate and Effects to Mr. Thomas Grove, of the Falcon, at Hasleley, near Warwick aforesaid, Farmer and Victualler, in Trust, to dispose thereof for the equal Benefit of the Creditors of the said GEORGE WARD, who have made or shall make such Deeds, which are now in the Custody of the said Mr. Grove.—NOTICE it is therefore given, that all Persons who have any Claim or Demand upon the said GEORGE WARD, are desired to send the Particulars thereof to the said Mr. Grove, that the same may be liquidated as soon as possible; and that all Persons who have any Debts due to or by the said GEORGE WARD, are desired to send the Particulars thereof to the said Mr. Grove, in order that a Dividend of the said Estate and Effects may be made without Delay.

AT the General Quarter Sessions of the Peace for the County of Oxford, held at Abingdon, on Wednesday the 16th of July, 1795.

The Court having received from his Grace the Duke of Portland, a Letter importing the Engagement of the Lords of the Privy Council to supply any Sort of Whetstone Bread finer than the Standard Whetstone Bread, and of the whole Produce of the Grain, the Hull or Bran only taken out.

RESOLVED, That we will ourselves adopt the Recommendation of the Privy Council; and that the Clerk of the Peace do transmit our Resolution to his Grace the Duke of Portland.

It appearing from every Enquiry which can be made, that the present high and increasing Price of Wheat is occasioned by a real Deficiency in the Stock in Hand, and that the same Scarcity which is felt in this County prevails throughout the Kingdom—

Resolved, That we do most earnestly recommend to all Persons to abstain from every Sort of wasteful or unnecessary Use of Wheat and Flour, until the ensuing Harvest shall again restore Plenty to this County.

Resolved, That the Use of the Standard Whetstone Bread, as above defined, will save nearly one third Part of the Wheat consumed, and will therefore prove very greatly conducive towards making the present Stock of Wheat last until a fresh Supply can be procured. Therefore

Resolved, That all Millers and Measurers in this County be particularly requested to prepare, and all Bakers and sellers who make Bread in their Families, to use for Bread only such Sort of Flour as is above defined.

Resolved, That it be recommended to all Families, particularly to the Poor, and also to the Officers of the Army, to purchase every Sort of Wheat and Flour Substitute for Bread, in order to diminish the Consumption of Wheat; while this dear and increasing Price, and that the Persons of all Ranks are equally interested in preventing the unhappy Consequences of the present Scarcity, and equally bound to assist in so necessary a Measure, it be recommended to all Farmers and Landholders to bring such Wheat as they can spare from the necessary Consumption of their Families, Workmen, and Neighbours, to some contiguous Markets; and that the Poor be advised and encouraged to buy such Wheat as they can afford to purchase from every Act of Violence and Disorder, by which the Scarcity, and consequently their own Sufferings may be greatly increased.

By Order of the Court. W. B. UDD, Deputy Clerk of the Peace.

GRAND JURY DEPUTY, at ABINGDON. BERKS. THE High Sheriff having laid before the Grand Jury an Enquiry entered into by the Lords of his Majesty's Privy Council and others, in Order to diminish the Consumption of Wheat in their respective Families, of which the said Grand Jury, after due Consideration, do hereby certify to his Majesty, the Lord Lieutenant of this County.

JULY 6, 1795. In Consideration of the present high Price of Wheat, and in order to diminish the Consumption thereof in our respective Families, as well as to relieve the Poor, and to assist the People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the First Day of October next, at any Place where the Sort of Bread now mentioned can be procured, any Sort of Wheat, which is better than that which is now used for People in general, until the Corn of the ensuing Harvest shall come into Consumption and relieve them from their present Difficulties, whose Names are hereunto subscribed, being desirous of introducing into the said County, a new and more valuable Sort of Wheat, which we will not purchase ourselves, nor suffer to be consumed in any of our Families, until the
