MOULDED WAX CANDLES.—The sole Manufacturers of this new and elegant article respectfully invite attention to the important improvements made since its introduction last season. They have succeeded in producing a wick which so completely consumes itself that snuffers become totally useless. The wick does not, as originally, break off when cold, but may, at any time, be instantaneously relighted. These advantages, added to its large, bright, steady flame, and its general handsome appearance, have obtained for it most distinguished and extensive patronage. In canons for carriage and chaise lights its superiority is striking.—Retailed only by JOSEPH HUNT, 13, Fenchurch-street, London, at 18s per doz. lbs. Country dealers supplied, and orders received, by Mr. C. B. Payne, 25, Coleman-street, agent to the sole manufacturers.—N.B. Half-price allowed for returned pieces.

Lea's, Regent's park Basin, will be promptly attended to.

The self-acting department presents to those who cannot play the privilege of a musical performance at all times, independent of human agency, and the performer is supplied with a splendid grand pianoforte, on which the finger may strive to rival the efforts of the mechanical action. These instruments may be employed to any extent in the performance of familiar airs, quadrilles, &c., or of the more brilliant fantasia of the concert room.—May be tried, and heard, at the patentees', Rolfe and Sons, pianoforte-makers, Cheapside, London.

FOR COUGHS.——PECTORAL ESSENCE OF COLTSFOOT.—The herb Coltsfoot has long been distinguished for its excellent properties in the cure of Coughs, and other pulmonary complaints; and this Essence has, in the course of a long practice, been found the most safe and effectual remedy for coughs, and all disorders of the lungs. It gently opens the breast, and immediately gives liberty of breathing, without any danger of taking cold, and thus it affords great relief in asthmatic complaints. It allays the tickling which provokes frequent coughing, cleanses the small glands, relaxes the fibres, and thereby enlarges the cavities of the vessels. Thus it will prevent consumptions, if taken before the lungs are ulcerated. It softens husky and dry coughs, and heals rawness and soreness of the chest.—This pectoral essence is prepared by JAMES RYAN, Surgeon, in Bristol; and sold in bottles, at 2s 9d and 4s 6d each, by F. Newbery and Sons, 45, St. Paul's Churchyard; J. Sanger, 150, Oxford-street, London; and in most country towns.—Observe the name "F. Newbery, 45, St. Paul's," is engraved in the stamp.

CHING'S WORM LOZENGES.—The Proprietor respectfully informs the Public that he has appointed Mr. Edwards, 67, St. Paul's Churchyard, to be the sole Agent for the sale of CHING'S WORM LOZENGES, and that each box and packet will for the future have engraved on the Government Stamp, "Evan Edwards, 67, St. Paul's," instead of "Charles Butler, Cheapside," as heretofore, without which none can possibly be genuine.—Worms are the most frequent causes of the diseases of children; the symptoms usually are loss of appetite, a paleness of colour of the face, emaciated and irregular state of the bowels, with violent pain. They bring on convulsions; they affect the growth of the body; and they prove fatal by ending in a consumption or decay. As a preventive and cure of these alarming complaints, the above excellent medicine is universally allowed, on the testimony of the highest characters in this country, in rank and respectability, to have no equal.—Sold also by all respectable venders of patent medicines in every town in the three kingdoms, in boxes at 2s 9d, 4s 6d, 11s; and in family boxes, equal to 10 small boxes, at 22s; also in packets for the poor, at 1s 1½d.

SMOKE JACKS and KITCHEN RANGES.—The expenses attending the common Smoke Jacks are great; most of them require oil several times in the year, and are liable to be put out of order by the chimneysweep, and the oil continually dropping on and into the cooking utensils from them. PROSSER'S PATENT SMOKE JACKS have been proved by upwards of 3,000 families and surveyors to be superior in every respect, as they will go several years with one supply of oil, and two quarts of oil will go as far as six gallons in any other Smoke Jack; they cannot be put out of order, for the oil escape from them, and will roast with spits or dangle if required.—The Patentee will if required keep them in repair, in any part of London, at 2s 6d per year.—The ranges are made of superior wrought iron; the bars and every part made to screw together, with or without wrought iron oven, boiler, or portable steamers, heated by the same fire; stewing stove or hot plate warranted to answer.—To be had of Prosser, the patentee, at his manufactory, Hackhill, Hatton-garden, and nowhere else, where they may be seen in use. Cradle spits on improved principles. Old Jacks, Stoves, or Ranges taken in exchange.— Common Smoke Jacks, at 1l each.

ELDERLY LADIES and GENTLEMEN intending to pass any length of time on the CONTINENT will find it a great advantage to provide themselves before they set off with every thing they may require at an English DENTIST'S, who will supply them equally well, in truth and honour, for one fourth of the Paris charges.
