### ANNOTATED RECORDS

Many 'Vocalion' Records which call for interpretation, either by reason of the composition being sung in a foreign language, or being an isolated number from a complete work (as in the case of an operatic selection), bear on their reverse sides short spoken commentaries by eminent musical authorities.

This advantage, which is exclusively confined to 'Vocalion' Records, entails no increase in price, those records which bear the spoken annotations being listed at the same price as formerly.

These records are marked "Annotated" in the catalogue.

## ANNOTATED RECORDS

Many 'Vocalion' Records which call for interpretation, either by reason of the composition being sung in a foreign language, or being an isolated number from a complete work (as in the case of an operatic selection), bear on their reverse sides short spoken commentaries by eminent musical authorities.

This advantage, which is exclusively confined to 'Vocalion' Records, entails no increase in price, those records which bear the spoken annotations being listed at the same price as formerly.

These records are marked "Annotated" in the catalogue.

## The 'GRADUOLA'

The 'Graduola' is a tone-controlling device exclusive to many models of the Aeolian 'Vocalion.'

By its means the music may be shaded at will from *forte* to the most delicate *pianissimo*. The value of this refinement, as a source of interest and means of expressing personal musical taste will be recognised, particularly in the case of concerted instrumental, orchestral and band numbers.

### A FEW APPRECIATIONS OF 'VOCALION' DANCE RECORDS

"I have long appreciated the influence of the gramophone on the dancing world generally, but not till I heard your 'Vocalion' Records did I realize to what perfection this class of dance music has been brought. The expert orchestras you employ are so faithfully reproduced that the result catches the very inspiration of dancing."  
(Signed) **LYDIA KYASHT.**

"I find your records exactly suited to my purpose as they provide a perfect accompaniment for dancing—they have that rhythm and lilt which only the most expert dance orchestra can render."  
(Signed) **PHYLLIS MONKMAN.**

"The 'Vocalion' Dance Records have proved a boon to me—your prescience in these matters is unexcelled by any other firm. Your records meet one's most exacting requirements. Indeed, they play with that rhythm, tone and time possessed only by the most expert dance orchestra."  
(Signed) **JOSE COLLINS.**

"With the advent of the 'Vocalion' Dance Records, the most entrancing and perfectly played dance music is at one's command at a moment's notice. The 'sparkling' rendition, combined with the perfect time, tune and rhythm of the 'Vocalion' Dance Records, gives dancing an added pleasure."  
(Signed) **LESLIE HENSON.**
